

# CSCC69

- An introductory course on Operating Systems' design principles
  - A hands-on experience building an OS
- ➡ Theory and practice goes hand-in-hand

# New trends in OS

## same same but different

Different architectures but, in the end, the same concepts defined in the 70s

But there are some new trends

- Multicore
- Energy efficiency (mobile and IoT devices)
- Virtualization (cloud computing)
